Democracies Urged From Solid Front

Preponderant World Forces on Britain's Side Says Winston Churchill in Replying to Fuehrer's War-Monger Accusation

LONDON, Oct. 17. - Winston Churchill, answering Chancellor Hitler's accusation, he was a war-monger, last night called upon world democracies to form a common front against "moral and military aggression" of dictators.

"The preponderant world forces are on our side," said Mr. Churchill. Britain's first lord of the Admiralty during the Great War. "They have but to be united to be obeyed."

Three Britons Charged

Churchill, along with Anthony Eden, former foreign secretary, and Arthur Duff Cooper, former first lord of the Admiralty, were charged by Hitler in a speech at Saarbrücken Oct. 9 with being men who "like to make war." Both Eden and Duff Cooper quit Prime Minister Chamberlain's cabinet because of his foreign policy.

Churchill said France and Great Britain bowed before Hitler's demands for Czechoslovakia's Sudetenland, but that they with the other democracies should halt the forward march of dictators.

Must Redouble Efforts

"If through an earnest desire for peace we have placed ourselves at a disadvantage, we must make up for it by redoubled exertions and, if necessary, by fortitude in suffering," he said.

"We shall not doubt arm."

"Is this a call to war? I declare it to be the sole guarantee of peace."

He said Czechoslovakia might have been saved from the partition to which she was subjected by the four-power accord at Munich.
